

# Mexico Public Schools

March 30, 2020

Dear Mexico 59 Parents:

To ensure transparency and convey important information, we wanted to share today's update from the Audrain County Health Department. As of 1:00 p.m., there are no confirmed cases in our county. In regards to the MMS staff member who tested positive last week, here is the statement:

*"Audrain County Health Department has not observed any surge in the number of residents requiring testing as a result of the Mexico Middle School (MMS) potential exposure. The MMS risk of transmission was low and all associated were urged to contact their healthcare provider to determine if testing was needed. Only those who have been instructed by their healthcare provider should remain at home and not go to work. **ACHD is unaware of any person who was instructed by a provider to remain home as a result of this incident.**"*

[The full update from today's ACHD press release can be viewed here.](#) ACHD offers a daily update that is shared on their webpage as well as on the KXEO website and Facebook.

On Saturday, we sent two emails regarding a staff member who had tested positive for COVID-19. As directed by the ACHD, we shared this message with middle school parents and the faculty and staff of Mexico 59. [All updates sent to parents regarding COVID-19 are linked to our school website.](#)

Thank you for your support of teaching, learning, and caring at Mexico 59 during these uncertain times. #MEX59TLC
